

Ball Bearing

LR-35/72

Ball Bearing
Packer Baler

Technical Specification

D	Outside diameter	72 mm
d	Bore diameter	35 mm
B	Width inner ring	17 mm
kg	Mass	0.32 kg
C _{dyn}	Dynamic load rating	16 kN
C _o	Static load rating	10.2 kN
P _u	Fatigue load limit	0.428 kN

Sealing

S SEAL / S SEAL (2S)

Single lip seal with the labyrinth between the sheet part and the rubber lip which conducts the contact sealing. The friction and speeds are the same as with RS but provides much better protection against the rough impurity particles. This is very good sealing system: the sheet part protects the seal from the soil, dust and rough particles. At the same time makes the labyrinth with the rubber part. The rubber part provides contact sealing which prevents penetration of finer impurities, water, moisture, steam etc. Suitable for neutral conditions because of the presence of the foreign materials. It is used with the Y bearing (standard) and deep groove ball bearings.
